TPR Progress Table

This table contains a list of Cerrejón's commitments following the 2008 Independent Panel's review of our social performance.

Each slide contains:

- The recommendations by the Independent Panel report
- Cerrejón's response
- The specific actions we committed to
- The end dates of those specific actions
- A description of how much progress we have made so far

Each action item is color-coded.

After advancing in community dialogue, Cerrejón decided to change the scope of some of the action items. These changes have been mentioned in the past progress reports.

In this table you will find updated information on action items we are still working on. You will also find new information on completed action items whenever important additional progress, beyond the scope of the original action items, has taken place. For example, Cerrejón has continued to work on corporate culture change and the enhancement of its social management systems and new information on key events is being recorded in the table.

Cerrejon's Corporate Culture

1

TPR RECOMMENDATIONS

Cerrejón must develop its own corporate culture to differentiate itself from antecedent companies (Intercor and Exxon). Corporate culture and image should be built on both its own interest and the interests of local communities in La Guajira. It would be useful were the company to also initiate training on the matter of transforming the operating culture of Cerrejón.

CERREJON'S RESPONSE

Cerrejón is committed to working towards an operational culture that gives priority to the way we interact with our stakeholders and one that instils in our operation cultural values and respect for all with whom the company interacts. We will develop a clear statement of our culture and values and communicate them broadly. We will develop a training program to ensure all management and employees understand such values and their implications for their day-to-day work. We will use our Sustainability Report to communicate our progress on this important area.

PROPOSED KEY ACTIONS AND PROJECTS

Hold a kick-off meeting with Cerrejón management and relevant staff to strengthen ongoing cultural transformation with regards to identity and CSR. Two key products are expected:

Develop and publish an action plan on corporate culture transformation and CSR, which includes training. Publish Cerrejón's statement on corporate values and approach to CSR.

- A general statement of values and CSR focus areas.
- An agreement on how to take forward the re-tooling process in a systematic fashion

PROGRESS

In October and November 2008, two high level workshops attended by the CEO and expanded management team discussed key CSR challenges and the way forward for corporate culture change. The group built on progress made so far and produced the 11 Commandments. The new Cerrejón Way identifies the following as key priorities: building trust with local communities through dialogue and participatory processes, integrating international standards with regards to preventing and managing social impacts and promoting sustainable development in La Guajira as key priorities for Cerrejón. The exercise served to formalise and internalise the TPR spirit accross Cerrejón's various deparments. On March 31-April 1 a refined version of these values and goals were presented to company employees during the yearly Results and Goals Communications Meeting. These actions have produced the required high-level commitment to carry on with the organisation's transformation. The corporate culture transformation plan includes: - One managerial-level workshop. -Two middle management workshops. -Thirty workshops for employees (Cerrejón has a total of 5144 employees). The whole cycle will finish in 2010. See more information about re-tooling on corporate social responsibility in item 2 of this table.

STATUS OF IMPLEMENTATION

Cerrejon's Corporate Culture Cerrejón should initiate training to advance the transformation of the company's operating culture and publicly report on its progress (including overall training programs). We will develop a training program to ensure all management and employees understand such values and their implications for their day-to-day work. We will use our Sustainability Report to communicate our progress on this important area. A values training program is being co-designed by the Human Capital function and CSR department to spread values (Cerrejon's and local values) in and out of organization. The axis of the program is the Cerrejón woman (employees and relatives), the program evolves into a Community leaders. Key high-level and relevant staff re-tooling training sessions with regards to CSR.

In 2008, Cerrejón had planned to launch a "values" program to address Cerrejón's challenges as permeated by local context. It was thus meant to address societal values in La Guajira and their effect on the conduct of the work force on a broad spectrum of themes, from safety to CSR. The project was designed to focus on women in the Cerrejón community and neighbouring towns. We have put this project on hold after realising that the Cerrejon Way process needs to take root first. The training plan for 2009 includes two pillars: -The Cerrejon Way workshops on corporate identity mentioned aboveTraining on relevant social engagement tools and CSR international standards, aimed at several departments across the company. In 2008 and 2009 the Social Responsibility team and other departments were trained on: Logic frameworks for participatory social investment projects; Anglo's Socio-Economic Assessment Tool (SEAT); People-Centered Dialogue and Development processes; Resettlement planning and quality of life indicators; and "Higher test" social engagement concepts, by On Common Ground. In addition, staff received expert coaching on Project Management to improve the results and accountability of each project. In 2010, the Sustainability group and other departments received training in operating the new grievances mechanism, which aims to follow the guidelines of the International Council on Mining and Metals (ICMM) and of the United Nations Special Representative for Business and Human Rights, John Ruggie, and key training on the IFC's Social Performance Standards. Cerrejón also begun Department of Human Resources. implementing a new engagement and communication strategy for resettlement Through the Human Rights Programme and the communities. This strategy is based on improved Complaints and Grievances Mechanism, we analyses on social impacts and seeks to follow promote and respect the rights of our stakeholders International Finance Corporation (IFC) Social so that their concerns and complaints are quickly addressed. Performance Standards. STATUS OF IMPLEMENTATION

Resettlements and Tabaco It will be necessary for action on Tabaco to be accompanied by the realization that there may be hold-over issues from earlier efforts which come to the fore again, requiring comprehensive and planned action. Cerrejón should address the situation of all the Tabaco families, regardless of their stance on negotiation in 2002. This kind of solution will only be sustainable if it is supported by a fully participatory consultative process involving all stakeholders, which should be commenced as soon as possible.

CERREJON'S RESPONSE

TPR RECOMMENDATIONS

Our overall approach to resettlement has been reviewed and revised to take into account the Panel's recommendations. Particular attention will be given to the development of a clear timeframe in consultation with the affected communities. Our expectation is that resolution of the Tabaco issues will be facilitated by the involvement of a mutually agreeable independent facilitator and propose to suggest this to the TRC and all former residents. We also propose to suggest a firm timeframe (not to exceed the end of 2008), again in consultation with the TRC, within which we will collectively work to bring the outstanding issues to a close. Through this process, Cerrejón will seek to uphold the Panel's recommendation that the monies currently in escrow for compensation should now be paid. Cerrejón will continue to work with the Red Tabaco group to progress the Panel's recommendation of a development bursary.

PROPOSED KEY ACTIONS AND PROJECTS	Agree with the Tabaco Relocation Committee on an independent external facilitator.	Agreement with the Tabaco Relocation Committee, facilitated by Professor John Harker.	Analyse and define the financial compensation for some special cases in the first Tabaco resettlement.
START DATE	01-Jan-08	02-May-08	05-Feb-08
FINICH DATE	20 May 00	20 Dec 00	04 May 00

PROGRESS

Tabaco and Cerrejón reached an agreement on December 12 of 2008. Since then: 100% of the compensations have been paid, and all of the 7 former Tabaco residents whose moneys were kept in a judicial bank account from the San Juan del Cesar circuit have now claimed their part. La Cruz farm, chosen by the Tabaco representatives for the reconstruction process, was given the required technical and legal studies for its purchase. Joint meetings with the Hatonuevo municipality and La Guajira provincial authorities to plan their role in reconstruction took place. Next steps include defining new socio-economic projects and disseminating the terms of the agreement more broadly in La Guajira and internationally.

STATUS OF IMPLEMENTATION

Resettlements and Tabaco

6

TPR RECOMMENDATIONS

All parties should focus on what can now be done to help divided communities and otherwise affected communities share better in the positive impacts of mining at Cerrejón.

CERREJON'S RESPONSE

In addition to the specific actions to enhance our community contribution, we also support the suggestion of the Panel to carry out a symbolic reconstruction initiative that will result in community identification and strengthening. We will work with all former residents to determine the support for such an action and what would be most relevant and valued by them.

PROPOSED KEY ACTIONS AND PROJECTS

START DATE

Improve living standards of Tabaco communities (New Entrepreneurial Projects for Tabaco Community)

20-Aug-08 01-Apr-08

FINISH DATE (original end date 12/31/2009) new expected date 2012

Build symbolic Tabaco site.

PROGRESS

In March 2011,La Cruz was delivered to Cerrejón. Currently notarial processes are under way to underwrite the respective public deeds. Corpoguajira finalized the review of environmental requirements and, together with the Hatonuevo municipality, modified the land classification, which was approved in 2010 through the Municipal Council of Hatonuevo. The Relocation Committee and the Endogenous Network are working together towards reconciliation through a work committee for the physical and social reconstruction of Tabaco. A major challenge is the distribution of the land and identifying how many members of the community want to live in the new town. So far there are 442 households that have been presented as potential beneficiaries. The symbolic site that Cerrejón made a commitment to build, will have to be defined by the community through a participatory process. The exact date of completion of the reconstruction of Tabaco and therefore the construction of the symbolic depends on several factors.

In 2008, Cerrejón financed a total of 91 projects for 52 families of the Tabaco Endogenous Network, investing 2300 million pesos (approx.1 million US dollars). Of these projects 50 were on income generation (agriculture, small shops and businesses, transportation); 37 were education grants for youths to finish school or university programs; and 4 aimed at strengthening the management capacity and cultural identity of the Tabaco community. The timeline of these projects and soft micro-credits vary from 1 to 8 years. Another 48 business ideas were evaluated by Colombia's National Apprenticeship Service (SENA), of which 37 were approved as projects, 22 estimated for 2009 and 15 for 2010. In February 2010. Cerreión facilitated a rights-based reconciliation workshop, attended by Cerrejón, local authorities and more than 200 Tabaco community members. Community members gathered in the Tabaco Relocation Committee with whom the agreement was signed on December 2008, submitted 18 requests for university education subsidies and 25 for primary and secondary school. In September 2010, the community also participated in productivity and sustainability trainings led by the National Apprenticeship Service (SENA). This course encouraged the community to set up work groups. More than 50 members of the Tabaco community, who are also members of the Relocation Committee, have been working on the development of 41 collective business ideas. In November 2010, the completion of the course generated the start of a second cycle of training in the creation of projects, with the help of an external consultant. Starting from the 41 business ideas identified in the first cycle of training, 34 projects encompassing livestock farming, services, commercial and industrial ventures were created. In addition, an exercise in integration and local participative planning was carried out in February 2011, with the aim of strengthening the social fabric. This initiative was called the II Tabaqueros Meeting, 239 adults and children attended the meeting, which covered topics related to the management of risks and the territorial security of the Tabaco Network, human rights, global warming, and environmental conservation.

01-Dec-09

STATUS OF IMPLEMENTATION

TPR SUMMARY REPOR	RT									
TPR RECOMMENDATIONS	be triggered not only when physical affected by the very proximity of the	ettlement processes based on international standards should I resettlement is required, but also when a community is e mine and its impact on other communities.	A broad conception of "affected community" must be embraced by Cerrejón as a key driver of its approach to both resettlement and good neighbourliness, including how it deals with communities who are "affected" but not "displaced".							
CERREJON'S RESPONSE	Cerrejón agrees with the Panel that resettlement may be appropriate where a community is adversely affected by the indirect impacts of mining. This concept has now been incorporating in our resettlement principles.									
PROPOSED KEY ACTIONS AND PROJECTS	Issue new resettlement policies statement.	Develop and agree with the affected communities timelines for their resettlement processes.	Develop indicators to measure current living standards of communities to be resettled and identify key actions that will improve these.							
START DATE	16-Jun-08	01-Jan-08	20-Aug-08							
FINISH DATE	30-Sep-08	(original end date 9/30/2008) new end dates will result from new dialogues	2/10/2009 new expected date 3Q 2012							
PROGRESS	This is our statement:Cerrejón follows World Bank (WB) and International Finance Corporation (IFC) guidelines. We see resettlement as an opportunity for dialogue with local communities, improvement of their living standards and building social capital. We expect the on going resettlement processes to strengthen sustainable development in La Guajira.	During 2010 Cerrejón made important advances in aligning the resettlement practices with standards that included specific actions such as the creation of Resettlement Actions Plar (RAPs), updating the social baselines and presenting and consulting them with the five communities to be resettled. The support provided by the Colombian NGO Indepaz to the communities of Roche and Tamaquito since April 2010 has been valuable in terms of mal specific recommendations on compensations in regards to income generation issues, use land, and other topics linked to the communities' sustainability. Cerrejón consulted the impact assessments of the resettlement to the communities of Roc and Patilla. In the second semester of 2011 Cerrejón will consult the impact assessments the communities of Chancleta, Tamaquito, and Las Casitas. The first agreements to relocate some of Roche's resident families were signed in Januar 2011. Ten (10) agreements have been signed up to date (8 families are now living on the Roche site and two more families are waiting to be moved) and we expect to reach agreements with 5 other families. However, there are important differences with 10 reside families who have concerns over the use of land for cattle ranching. We recognize the challenges that a segmented relocation represents and are working to address the specifi issues. We are keeping all communication channels open and promoting dialogue with all members of Roche, their representative groups, and the accompanying institutions in orde reach agreements that will lead to the signing of the accords to move the families as soon possible and minimize the effects of a temporary division among residents, and achieving goal of having a unified group at the new site. Roche's school was inaugurated in Februar 2011 and Cerrejón has begun to implement programs aimed at developing educational sk of children and youngsters in this community. In July 2010, Cerrejón signed the promissor purchase and sale agreement for Tamaquito's new site. Between November 201	sing of the with the capacity for self-administration, and equity capital, were developed with the support of the technical consultancy Asicom, which developed these indicators over a three-month period. After the identification and definition of the indicators, an initial measurement was carried out across the five communities in the process of resettlement. Analysis shows that the next assessment should be undertaken when each community has been moved in order to identify significant variations in standards of living resulting from the relocation. Once each community is moved, it will be periodically monitored at appropriate intervals for establishing improvements in the standard of living for each community at its new site.							
STATUS OF IMPLEMENTATION		Level of completion to be determined depending on new community dialogues								

IPR SUMMARY REPOR							
	Resettlements and Tabaco 9						
TPR RECOMMENDATIONS	Cerrejón should view past resettlements as liabilities which need to be addressed through a new approach that emphasizes clear consultation and negotiation practices and strategies. It may also be appropriate for Cerrejón to continue to promote group as opposed to individual resettlement, as is advocated in modern standards covering resettlement.						
CERREJON'S RESPONSE	Our overall approach to community resettlement has been reviewed and revised to take in to account the Panel's recommendations.						
PROPOSED KEY ACTIONS AND PROJECTS	Update Cerrejón's web site to explain better the resettlement processes and the implementation of international standards. Update every 3 months.						
START DATE	20-Jun-08						
FINISH DATE	30-Oct-08						
PROGRESS	We understand that the information on the resettlement processes in our web page is not enough. We hope to have updated information on the relocation processess in our upcoming website, which will be presented by mid 2011						
STATUS OF IMPLEMENTATION							

TPR SUMMARY REPO	K I						
	Cer	rejon's Foundation System		10 & 11			
TPR RECOMMENDATIONS	10	Cerrejón's aim should be to explore how its existing role and capacity can be better harnessed for sustainable and equitable socioeconomic development in La Guajira.	11	Each foundation's strategic objectives and specific activities need to be developed through an extensive and participatory consultation process with relevant stakeholders. These should be published and disseminated, both as a means of providing clarity and as a way of managing expectations.			
CERREJON'S RESPONSE	can i this o long	Cerrejón acknowledges the Panel's recommendation that it explore how it can more effectively contribute to sustainable development in La Guajira. To this end, we will further strengthen our social responsibility actions for the long term benefit of the communities and to seek sustainability for the people of La Guajira. Agreed. Cerrejón will work with the relevant stakeholders to develop the strateg specific activities for each Foundation. We will publicly report our progress annu company's Sustainability Report.					
PROPOSED KEY ACTIONS AND PROJECTS		Develop, consult and publish each foundation's key objectives and strategies.					
START DATE		30-Jun-08					
FINISH DATE	31-Mar-09						
PROGRESS	royal stake	In February 2008, Cerrejón launched four foundations focusing on: making clean water accessible, improving the quality of life of the Wayuu, promoting the effectivenes of taxes and royalties investment and increasing local employment. Throughout 2008 and 2009, the Foundation's strategies and programs have been discussed with several local stakeholders, including local authorities and benefficiary communities. See more information at www.fundacionescerrejon.org. We aim to have on going consultations with local communities and dissemination of information about the foundation's programs and impacts.					
STATUS OF IMPLEMENTATION							

TPR SUMMART REPUR	AI .
	Cerrejon's Foundation System 12
TPR RECOMMENDATIONS	The independence of the foundations should be strengthened and made explicit, with particular attention given to ensuring that the foundations are acknowledged as being properly informed, expertly guided and sufficiently independent.
CERREJON'S RESPONSE	The Panel's advice that good governance will be fundamental to the long term success of the Foundations is well made and their recommendations will assist in the further development of our approach. We have sought to ensure that each of the Foundations have high calibre Executive Directors, selected for their knowledge, expertise, and management skills, with world class Boards of Directors.
PROPOSED KEY ACTIONS AND PROJECTS	Appoint high profile directors and boards for the foundations.
START DATE	30-Jun-08
FINISH DATE	30-Jun-08
PROGRESS	The four foundations are managed by senior directors with professional and academic experience relevant to the specific development objectives. See Foundation directors' profiles and boards at www.fundacionescerrejon.org.
STATUS OF IMPLEMENTATION	

TPR SUMMARY REPOR	RT									
	Engagement with Civil Society		13							
TPR RECOMMENDATIONS	Cerrejón should increase efforts to encourage and attract civil society organisations, Colombian and international development agencies, donor governments and multilateral institutions.									
CERREJON'S RESPONSE	We fully agree with the Panel's recommendation that we should further encourage the participation of international development agencies, donor governments and multi-lateral institutions. Good progress is being made. To assist with this objective Cerrejón will host a "Forum for Regional Development" inviting additional civil society groups, government and companies to participate in the development of joint strategies and action plans. The Forum will be held no later than the first quarter in 2009.									
PROPOSED KEY ACTIONS AND PROJECTS	Relevant departments must identify and approach new partners. Status of new alliances will be published in our web site. Planning and preparation of the Forum in consultation with internal an external stakeholders. Host a Forum for a Regional Development.									
START DATE	01-May-08	11-Sep-08	3Q 2009							
FINISH DATE	31-Dec-08	30-Jun-09	(original end-date March 2009) Nov 2009							
PROGRESS	In addition to contacts previously reported,we engaged:Pax Christi and International Alert on Voluntary Principles themes; the World Business Council on Sustainable Development, the Netherlands and Carrefour (a supermarket chain) to set agicultural projects than can provide local employment; Harvard on a project to improve our grievance mechanisms; the United States Agency for International Development and Florida International University to set up a House of Justice in Riohacha; and the Women's World Banking on micro-credit, among others.	Perspectives on the Sustainable Development of indigenous communities, local authorities, natio and academics. It was co-hosted by the Coloml Colombiano, the Gobernación de La Guajira, Cicommunity consultation workshops in October, and ideas could be presented at the Forum. Redepaz facilitated two preparatory one in Uribia and other in Barrancas to make sure local voices e Forum was followed by the so called International Aid 14 foreign donor countries and United Nations agencies. h local partners, participated actively. Key results have been: a. ess comprising communities, political parties, munipalities, nning Department, which should produce a strategic short term awareness of Wayuu views with regards to development, c. nd the need to combine small and large scale economic er awareness among state actors of their responsibilities and egic areas and projects for foreign donor funding.							
STATUS OF IMPLEMENTATION										

The Wayuu - Culture and Employment 14 The key focus for future Cerrejón social responsibility practices should be addressing the fact that the Wayuu have benefited the least by the mine's presence, while they are the most TPR RECOMMENDATIONS vulnerable and the most impacted segment of the local population. The Wayuu are a particularly vulnerable segment of the local population and to date, they have not benefited to the same extent as others. We agree that this must be addressed as a central element of Cerrejón's social responsibility practices. To address this issue, Cerrejón's Foundation for Indigenous Guajira and Foundation for Progress in La Guajira will develop a **CERREJON'S RESPONSE** special education and training program. Building on existing efforts, the program will be developed in consultation with the Wayuu communities, government, NGOs and other agencies contributing to development in the region. The program will be presented and discussed at the Forum we've agreed to host. Carry out a set of socio-economic development activities in conjunction with Cerrejón, the Foundation for Indigenous Guajira, the Foundation for Progress in La Guajira and other partners PROPOSED KEY ACTIONS to improve the living standards of the Wayuu Communities in our area of influence, respecting Wayuu culture and traditions. AND PROJECTS START DATE 01-Jun-08 FINISH DATE 31-Dec-08 Detailed information of the Foundation for Indigenous Guajira is available at www.fundacionescerrejon.org.Key projects and impacts in 2008 and 2009 include: - Strengthening indigenous culture, welfare and rights through the so called "Planes Integrales de Vida": these integrated plans are mechanism whereby indigenous groups reaffirm their identity and articulate interest into municipal and provincial development plans. Up to December of 2009, the Foundation had facilitated 135 meetings in 7 indigenous reservations and 12 indigenous settlements, with a total participation of 2,000 persons. The Red de Seguridad Alimentaria programme (Resa, food-safety network programme) in 2008 benefitted families totalling 18,213 persons with **PROGRESS** distributions of 3,750 seed packets and farming equipment. The program offered agricultural capacity-building and follow-up visits. In 2009, there were another 2 systematic food-safety programmes: Apoyo a Seguridad Alimentaria Wayuu-Wiwa (Asawa, Food Security Support for Wayuu and Wiwa) and Ayatajirawa (Community Support) for the production and marketing of foodstuffs. Participation consisted of 490 families comprising a total of 1,760 persons. STATUS OF IMPLEMENTATION

TPR SUMMARY REPOR	The Wayuu - Culture and Employme	ent 15						
TPR RECOMMENDATIONS	Cerrejón should develop a clear strategy and measurement indicators.							
CERREJON'S RESPONSE	Cerrejón is currently committed to have at least 20% of its new work force made up of in habitants from neighboring communities and indigenous population. We will clearly articulate our plans and publicly report our progress in our Sustainability Report.							
PROPOSED KEY ACTIONS AND PROJECTS	Identify training needs of the communities in the Cerrejón sphere of influence and define a training plan.	Implement training plan according to community interests.						
START DATE	19-Jul-08	30-Nov-08						
FINISH DATE	30-Nov-08	30-Dec-09						
PROGRESS	We consulted communities on their needs and these were the results:electromechanics, crafts training, wordprocessing, home renovation and maintenance, and grass-roots business associations. We conducted a focus group session with Wayuu employees to understand better possible barriers of entry into the company and difficulties adjusting. The results were used to reform training and entry processes:now follow up can be made on the status of the selection using computers. Cerrejón has 5,144 direct employees of which 428 are from surrounding areas or Wayuu. Of the 704 hired in the last year, 34%, or 236, is of the Wayuu or surrounding population. The total number of wayuu people working for our contractors is 449, equivalent to 7.92% of total contractor employees.	Cerrejón's training plan for 2009 will offer training 16 sessions for 200 people from neighbouring communities,of which 40% are Wayuu.						
STATUS OF IMPLEMENTATION								

The Wayuu - Culture and Employment 16 Training for future local employees should be complemented by parallel process of business development support to enable local companies to meet the standards required by Cerrejón in TPR RECOMMENDATIONS delivering certain products and services. In 2008, the foundations system signed an agreement with the Servicio Nacional de Aprendizaje (SENA, Colombia's national vocational training agency) for the training of 1000 Wayuu **CERREJON'S RESPONSE** youth in entrepreneurial skills, which will later turn in to productive projects. We will report progress in our Sustainability Report. PROPOSED KEY ACTIONS Implement "Conéctate Colombia" program (Technical training for 120 students). Monitor entrepreneurship projects derived from training. AND PROJECTS START DATE 18-Dec-07 30-Jun-08 FINISH DATE 30-Mar-09 30-Mar-09 Between June and October 2009, Cerrejón strengthened four artisan associations in the Indigenous Since 2008, and including the persons that are currently in a training Reservations of San Franciso, Trupo Gacho, Provincial, and El Cerro through the entrepreneurship program, 947 indegenous Wayuu are trained. The goal for 2009 is to train units of the National Apprenticeship Service (SENA). In 2010, through an agreement underwritten by **PROGRESS** 647 indigenous persons total. Before the end of the first half of 2010, the the Creata Foundation and the Cerrejón Foundation for Indigenous Guajira, Cerrejón succeeded in goal of training 1000 young Wayuu will be reached. diversifying artisan production through the development of new products, and strengthening best practices in production, administration, and merchandising. 70 artisans have benefited. In addition to training in business ventures, they participated for the first time in national events and fairs to promote and market their products, such as Expoartesanías, Expoartesanos, Expoleather Show, amongst others. In March 2011, this initial phase ended with a participative evaluation by stakeholders (Cerrejón, the artisan beneficiaries, and the Creata Foundation) with the aim of sharing lessons learned, successes, and difficulties encountered during the development of the business venture and entrepreneurship project. In 2011, Cerrejón will continue to work alongside these work units to help them strengthen their businesses. STATUS OF IMPLEMENTATION

The Wayuu - Culture and Employment The company could work with the Wayuu clans to organize ceremonies which would recognize the burial sites along the railway line and (in cooperation with the appropriate public TPR RECOMMENDATIONS authorities) explore options for renaming the road as the "Wayuu Memorial Highway". As recommended by the Panel, we will develop plans to recognize burial sites and rename the access road during 2008. We will do this with the involvement of the elders and the **CERREJON'S RESPONSE** traditional authorities of the Wayuu communities and ensure that any actions have the full support of the local communities. PROPOSED KEY ACTIONS Develop plan with the Foundation for Indigenous Guajira and communities. AND PROJECTS START DATE 01-Jun-08 FINISH DATE 30-Apr-09 In August 2008,we concluded a detailed study on Wayuu usage of land adjacent to the railway to understand better the pattern of Wayuu railway crossings, which can be hazardous to them. As a result we identified two critical points where we can build bridges for Wayuu circulation. We calculate these will service around 50% of pedestrian traffic. The construction of bridges is being assessed. The study on mental health, alcohol and drug use among Wayuu was completed in August 2009. Currently, the Foundation Indigenous Guajira is advertising a programme for substituting alcohol stills for farming development programmes. This is part of a three-year plan to mitigate the accident rates and psycho-social problems of the Wayuu communities. As regards the Offering Sites (sitios de pagamento) in our area of influence, we identified 6 lands. The majority of these sites are located on private property, one on public **PROGRESS** property and another in an indigenous reservation, Trupio Gacho, which was completely recuperated through an agreement between the Wayuu of Trupio Gacho and the Wiwa and Kogui of Sierra. With this agreement the Wiwa pledged to care for the water zones in the area and the indigenous Wayuu pledged to stop selling the sacred stones of the Wiwa. The Cerrejon Foundation for Indigenous Guajira took charge of maintenance work reforestation, and care of the offering sites in the location. The buying process of land for the protection of sacred sites is being evaluated.

STATUS OF IMPLEMENTATION

The Wayuu - Culture and Employment 18 TPR RECOMMENDATIONS Attempting to reunite the community at Media Luna, at least socially if not physically, should be a priority for the management of social impacts at Cerrejón. The Panel's recommendation is supported but clearly also requires the consent and participation of the Wayuu clans involved. Cerrejón management will facilitate discussions with the **CERREJON'S RESPONSE** clans to determine their aspirations. In consultation with the community, a support program will be developed for implementation within 6 months. PROPOSED KEY ACTIONS Develop and implement a home improvement program. Build a health center. AND PROJECTS START DATE 02-Feb-08 01-Mar-08 FINISH DATE 30-Dec-09 30-Dec-08 In early 2010 Cerrejón proposed a housing improvement plan to the communities of Malla Norte (Kamusuchiwo>o) and Malla Sur (Pioule Piula). The consultancy firm Yalmar Vargas y Asociados was selected to undertake the design of housing in Pioule Piula. In April 2011, the community and **PROGRESS** traditional authorities approved the design proposal for 21 houses. Construction Both a health center and a nutrition service center were built by August 2009. will start in the second half of 2011. Regarding Kamusuchiwo>o and its territorial claim, a meeting took place on 16 of March gathering community representatives, national State authorities and Cerrejón to clarify the legal status related to the industrial land reserve where Puerto Bolívar is located. Current boundaries of the reserve were confirmed and will inform engagement plans in the zone. Cerrejón will once again share its social programs with the community of Kamusuchiwo>o) over the course of this month. Cerrejón's intervention in Media Luna goes beyond these two tasks. We have structured an integrated proposal addressing health, education, infraestructure (water, housing) and income generation. Some of the specific components have already been consulted with the communities. STATUS OF IMPLEMENTATION

TPR SUMMART REPUR	TPR SUMMARY REPORT									
	Royalties				19					
TPR RECOMMENDATIONS	encourage the establishment for g	Cerrejón should explore means of disseminating information on royalties more widely, with the objective of stimulating awareness and active debate amongst the population. It should encourage the establishment for growth of organisations capable of sustaining civil society's engagement and interest in the management of royalties and of monitoring and holding local government accountable for their use. It should also address the problem of state capacity, perhaps through the Foundation for Institutional Strengthening.								
CERREJON'S RESPONSE	Cerrejón will explore means of disseminating its publication of all payments to government more widely, including through the local media. We will also continue to include this information in our Sustainability Report and discuss it with the local communities as part of our stakeholder engagement program. Cerrejón will also meet with relevant Colombian government agencies to promote Colombia's adherence to the Extrative Industry Transparency Initiative (EITI).									
PROPOSED KEY ACTIONS AND PROJECTS	Conduct meeting with key government stakeholders.	Write the Colombia case study for the EITI Mining book, to be launched at the February Doha meeting.	Publish royalties payments in the local media.	In conjunction with the Presidential Anti-Corruption Office, royalty projects shall be monitored with the support of citizen oversight.	Carry out capacity buildings workshops for public official and other stakeholders.					
START DATE	20-Jun-08	25-Aug-08	02-Jun-08	29-Jul-08	30-Jun-08					
FINISH DATE	15-Dec-08	30-Dec-08	30-Nov-08	30-Dec-09	30-Sep-08					
PROGRESS	Cerrejón helped EITI arrange meetings with key government and industry reps in November in Bogotá. León Teicher also contacted Minister of Mines to encourage Colombia's adherence. There is increasing interest among public officials, business associations and the private sector. Some government officials still question the value added of EITI given that the World Bank is already implementing programs to improve sub-national level revenue management (what is known as EITI++ issues). Cerrejón is committed to carry on encouraging government decision-makers to sign on to the initiative.	Cerrejón published in February 2009 a case study on royalties and transparency in the recently launched EITI publication: "Advancing the EITI in the Mining Sector".	A publication with Cerrejón paid taxes and royalties was issued in January 2009. The Foundation for Institutional Strengthening is training journalists on royalties' issues. 60 journalists from different municipalities in La Guajira attended the first 2 workshops held in Fonseca and in Riohacha. In alliance with the National Planning Department, a training event was organized for 53 local journalists dealing with the regulatory framework of royalties and the role of press in the control and monitoring of these resources. To attain greater involvement from the media regarding the investment processes of coal royalties, the Foundation launched in January the Award for Best News Report on the Investment of Coal Royalties and its Social Control in La Guajira. The award has 34 local registered journalists who will submit their work on November 30, 2009. The royalties payments are not published in local media but the Foundation disseminates this information through Monthly Reports on its website. TPR RECOMMENDATIONS	20	Allegations of aggression by security forces need to be right investigated and efforts made to ensure that correct behatitude by Cerrejón security personnel serve to strengthe between the company and nearby communities. Cerrejón to establish a more transparent process for handling com security and put in place a systematic mechanism for dial communities around security concerns.	aviour and en relations n should work plaints about	21	Cerrejón should take advantage of the process currently under way in Colombia to deve clear indicators for implementation of the Voluntary Principles. Piloting and refining these indicators will provide a proper mechanism for recording, monitoring and addressing alle violations, as well as a system for evaluating the results of its extensive human rights training program.		
CERREJON'S RESPONSE	We fully agree with the Panel's view that any allegations of aggression by security forces need to be vigorously investigated and remedial action taken if the allegations are substantiated. This has been and will remain the case, however, we recognize that putting in place transparent processes for handling complaints and a systematic mechanism for dialogue with local communities around security concerns would be valuable. We will explore the Panel's recommendations as part of our overall community consultation program. We will develop indicators of the success of our extensive human rights training as suggested by the Panel by the end of 2008. Progress will be reported through the annual Sustainability Report.						atic mechanism for nsultation program.
PROPOSED KEY ACTIONS AND PROJECTS	Improve the existing complaints and grievance mechanism.		Pilot the indicators of the Voluntary Principles on Security and Human Rights.			Design and put into practice a follow-u the results of human rights trainings.	p mechanism to mesuare

PROGRESS	A claims log and follow up procedure for Voluntary Principles on Security and Human Rights issues was completed in 2009. That year Cerrejón decided to go beyond the scope of this commitment and design a corporate-wide grievance mechanism. In December 2009, Cerrejón launched the pilot phase of the new an overall corporate claims mechanism that follows the recommendations by the UN Special Representative for Business and Human Rights, John Ruggie. The pilot phase will conclude in June and include additional stakeholder consultations.		lessons learned A positive effect ensure that the	f report w t of this e private so alysis and	n completed and the ill be published in 2010. xercise has been to ecurity contractors I take into account	In October 2010, Cerrejón hired the Co Center (CERAC in spanish) to design a would allow measurement of the impac undertaken in human rights.
